

THE NEW ŠKODA KODIAQ RS

ŠKODA
SIMPLY CLEVER

GO EVERYWHERE, QUICKLY

The new ŠKODA KODIAQ RS goes where no ŠKODA has gone before. To complement the most powerful TDI engine we've ever built, we added a 4x4 drive system with 20" alloy wheels for sporty handling, whether you're on the road or nowhere near it. Glide in comfort thanks to a lightning fast 7-speed DSG, and an equally racy, leather-Alcantara®, sports interior. No matter where you're headed, the new KODIAQ RS will get you there. Quick.

That's Simply Clever. That's ŠKODA.

A BEAST ON ITS BEST BEHAVIOUR

The Kodiaq RS loves to roar, but as a family SUV, it knows when to use its indoor voice. Our sporty new design says plenty without making a fuss. The LED tail lights and trapezoidal chrome-plated bumper details make for a wonderful view for those behind. While our bespoke retroreflector strip and new grille-mounted RS logo let us command the road, without hogging the lanes.

TAKE A FAMILY VACATION TO THE WILD SIDE

The Kodiaq RS loves the bustle of city roads. But, every now and then, it's nice to dip your tyres and toes into a cool running stream. The new Kodiaq RS effortlessly combines sporty accessories with the luxurious interior of an SUV. So cut an hour off Friday's end, pack the kids in the back, and let's see how wild you can get before you have to be back for dinner.

BUILT LIKE IT'S GOT SOMETHING TO PROVE. DRIVES LIKE IT DOESN'T

The Kodiaq RS is driven by the most powerful engine in the ŠKODA range: a turbocharged 2.0 TSI with 176kW of power and 500Nm of torque. What do all those numbers mean? You'll know when you feel that instant accelerator response, and the extra boost in the mid-speed range. You'd never expect an SUV to be that sporty, but that's what makes the Kodiaq RS the best of the beasts.

UPHOLSTERY/WHEELS/COLOURS

Alcantara®/Carbon leather°/leather covers with contrasting red stitching and embossed RS logo emphasises the sporty interior.

The stylish look of the car is underlined by the 20" XTREME anthracite alloy wheels, which come as standard.

The engine uses Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO_x). The volume of the AdBlue® tank is 18 l and consumption depends on the driving style.

**Fuel consumption figures according to Australia Design Rule (ADR) 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition, and accessories fitted, will in practice in the real world lead to figures, which generally differ, from those advertised. Advertised figures are meant for comparison amongst vehicles only.
