[3]

[1] DownTown jacket

Just as sun follows rain, business meetings eventually give way to getting out on your bike. And this half-length, two-in-one parka-style jacket will help you make the perfect getaway. Thanks to the removable thermo jacket, you can wear it comfortably over a jacket or suit, providing a high level of protection if you commute to work on your bike.

[2] Summer trousers

When temperatures are high, these summer trousers come into their own by keeping you luxuriously cool. But they're not just lightweight, good-looking and protective: it takes a moment to unzip the legs and turn them into shorts, removing the knee protectors in the process.

[3] Urban boot

Everything a maxi-scooter rider needs in a short-shaft boot. A special hydrophobic treatment ensures the cowhide leather is both water-repellent and breathable. The boot is reinforced at the heels and toes, and features elastic material around the ankle for added comfort.

RIDER EQUIPMENT.

BMW SAFARI

What is the BMW Safari?

The BMW Safari concept began in 1994 as a ride designed to cater specifically to riders of BMW Motorcycles. It is unique to Australia and there are two different flavours - the TS Safari for road bikes and the GS Safari and GS Safari Enduro for dual purpose machines.

The Safari runs as a touring style event typically for 5 days. It's not a guided tour, but the route is marked and route maps are provided to riders.

The BMW Safari crew make it easy for you by taking care of all accommodation bookings, co-ordinating social functions, and providing you with all the information you need to enjoy your ride!

Why Ride the BMW Safari?

It's an excellent, organised ride with a great bunch of people. You can relax knowing that everything is organised for you, so all you have to do is enjoy the ride. Ride safe with a comprehensive support crew and have fun exploring amazing routes and visiting places you have always wanted to go to. The BMW Safari allows you to escape the daily routine and enjoy good times on your motorcycle, while swapping stories with other riders and making lifelong friends at our social functions.

DISCOVER THE ART OF CORNERING

What We Teach

For many people, riding a motorcycle is something they just do. They don't really know what they do to get their overall result, it just seems to happen. At the California Superbike School we take the mystery out of riding. We help you understand precisely what you do with each and every control action to get each and every riding result. Only through true understanding can you consistently perform any task to a great degree, riding a motorcycle is no exception. Each level is a complete and integrated package of technical skills. The levels must be done in sequence and each level takes one day to complete.

• Level 1:

Level 1 deals with the six most common rider errors.

• Level 2:

The key to smooth, fast and confident riding is training your eyes. Level 2 brings them into focus.

• Level 3:

Level 3 puts you in full command of the bike through better stability.

• Level 4:

Level 4 is your custom program, we evaluate your riding and find out what your program should include.
