ŠKODA OCTAVIA | SPORT, LUXURY, VALUE

ALL NEW DESIGN

In the front section, it is the OCTAVIA's classic robust grill, with its striking black / chrome plated frame, that grabs the attention. Following on from the grill are the new matrix LED headlights, which have been completely redesigned to give the car a generally lighter look.

Tornado line - which encircles the entire car and, in the front section separates the wing from the bonnet.

The sloping section of the rear window, which discreetly segues into the tailgate, evokes the car's dynamism.

The SKODA name is written in letters on the tailgate.

The two-part rear lights with dynamic indicators extend into the tailgate so that they tie in with the spirit in which the new SKODA models have been designed.
