^The Start/Stop system is designed to reduce fuel consumption and CO2 emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner’s manual for full operating information.

**Fuel consumption figures according to ADR 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.

Volkswagen Choice: Protecting your investment

We’re out to prove that there still are some guarantees in life. We’ve developed Volkswagen Choice – a flexible finance solution that provides you with the assurance of knowing exactly what the minimum value of your vehicle will be down the track. With Volkswagen Choice, you can enjoy your car without worrying about what the future will bring, providing peace of mind.

Step 1
Choose your favourite Volkswagen model.

Step 2
Choose your preferred term from between 12 and 48 months, along with an annual km allowance and repayment options that suit your lifestyle.

Step 3
At the end of your chosen term, select from one of the three below end of term options:

Trade in
If you wish to trade-in your Volkswagen for a new vehicle, all you need to do is return it to the dealership. If the trade-in value is higher than the Guaranteed Future Value, you can use this equity towards your new vehicle purchase.

Retain
If you prefer to retain your Volkswagen, simply let us know. Provided that you also meet the relevant payment obligations under your contract, you can purchase your vehicle outright for the Guaranteed Future Value price locked in at the start of the contract. Then your Volkswagen is yours to keep. Or you can choose to refinance your balloon at the end of the term.

Return
Return your vehicle and, if it meets the agreed kilometre and fair wear and tear requirements, you will have no more to pay.

*The Volkswagen Choice Program consists of an option to return the vehicle to Volkswagen Financial Services (VFS) at the end of the term and require VFS to purchase the vehicle at an agreed price known as the Guaranteed Future Value or GFV as determined by VFS and set out in your contract. At the end of the term, you can elect to: (1) trade-in the vehicle; (2) exercise the option to return the vehicle; or (3) retain the vehicle by paying the GFV, which is a lump sum owed to VFS at the end of the loan term after all monthly repayments have been made. Available on new and demonstrator Volkswagen vehicles for selected models only. Verify with dealership eligible vehicles for the program. The GFV will be reduced, and you will be liable for any loan contract deficit, if you exceed the nominated kilometre allowance and/or the vehicle is not in an acceptable condition. Standard fees/charges and further conditions apply, available from VFS.

**VFS is a trading name of Volkswagen Financial Services Australia Pty Limited ABN 20 097 071 460, Australian Credit Licence Number 389344.
